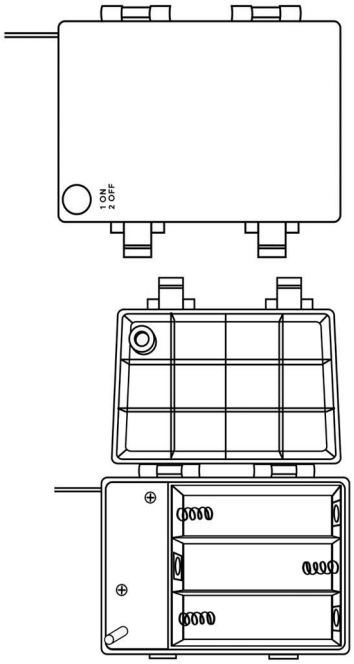
Indoor Battery Operated Lights (BPL Type)

FOR INDOOR USE – Batch no: **XDZD36502025**



1. Open the battery box and insert 3 x AA batteries following the directions in the battery box.
2. Close the battery box ensuring the clips are fastened securely.
3. Press the button once and the lights are set on.
4. Press the button twice and the lights will then switch off.

Warnings

1. The external, flexible cable or cord of the lights cannot be replaced; if the cord is damaged, the set should be safely disposed of.
2. The lamps are not replaceable
3. Do NOT overload. Each battery box powers one set of lights only, max 50 bulbs.
4. These lights are not a toy – please keep them away from children.
5. The lights must be used indoors only.

Troubleshooting

If for any reason when you first put the batteries in the lights do not work please try the following and if none of these resolve the issue, please contact us:

1. Have you checked the batteries are in the correct way inside the battery box?
2. Check the batteries are new and have enough charge.
3. Sometimes the batteries push the silver contacts at one end (opposite the spring) too far, so no connection is made. Please try lifting the contact carefully to be closer to the battery connection.
